Junior Python developer

I am looking for a Trainee/Junior Python developer position. I want to find a company where I can use all my acquired knowledge and skills. I believe that my engineering knowledge, education, experience, and mindset will help me grow in my new position. I am always open to new knowledge and challenges. I am stress-resistant, responsible, and a quick learner person.

PROJECT EXPERIENCE

Group project "**CLI Contactbook**"
Technologies: Vanilla Python.

A console application for storing contacts and notes. For birthday reminders and saving contacts to a file.

EDUCATION

2023-2024 IT School GoIT,
Python Developer

2023-2024 Technical University of
Košice, Informatics/Intelligent
Systems

2024-now Slovak University of
Technology in Bratislava, Applied
Informatics
